

Dot map of stations

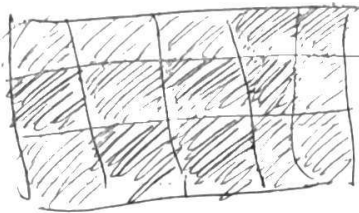

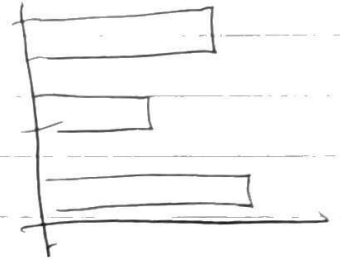

Proportional symbol maps

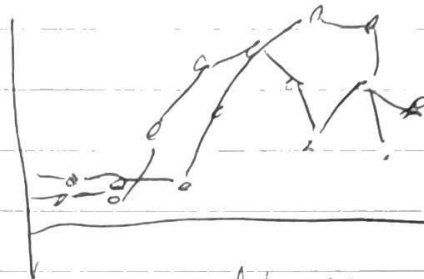

bubble plot

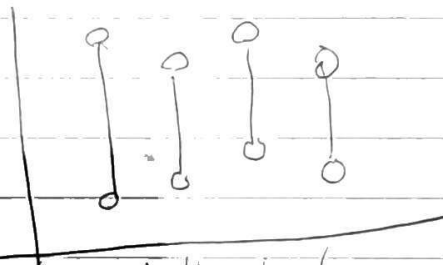

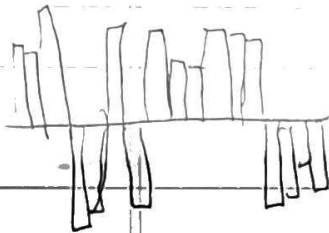

bar chart

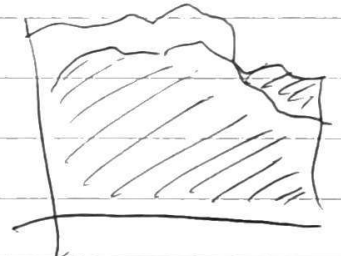

Heat map

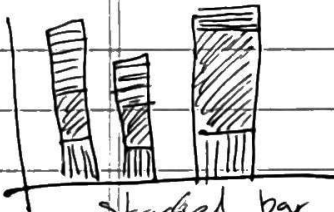

line + dot plot

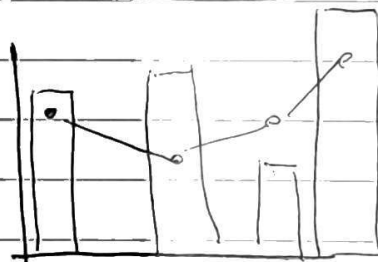

dumbbell chart

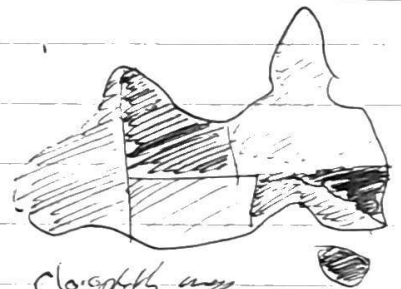

Area chart

stacked bar

bar + line chart

choropleth map

Filter (2)

- Choose 1 or 2 map type for overall page
- Avoid using similar idioms like bar charts or area charts as they all show the same information.
- Avoid overly simple idioms like a normal bar chart or line charts (choose more complex)

Categorize (3)

- Overall spread of stations
- ↳ 2) Impacts on people
- ↳ 3) Patterns and numbers

Combine (4)

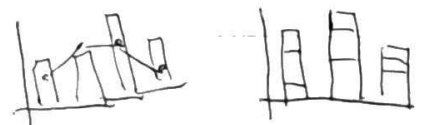

- Potentially combine elements of choropleth + proportional maps

Question (5)

- How easy are emergency stations located across Vic?
- How accessible?
- How accessibility differs by service type
- Which LGA should be priority?

- Use joint idioms to depict more information detail like line + bar charts or stacked bar charts.
